

WRITING ASSESSMENT
Write your final composition here.

G 8

I would like to go to the moon. First because it's every kid's dream. Second it would be really cool to be one of the few to go to the moon. Last I could tell my grandkids.

The first reason I would like to go to the moon is it's every kid's dream. Why would you want to go to the moon? Besides the reason you could die. But that is very unlikely it would happen. You would definitely have bragging rights.

The second reason is because it is cool. You would be able to tell all of your friends. It would be like being a superstar. Because everybody would come up and ask for your autograph, plus you would have lots of money.

The last reason is you could tell your family stories about it. Such as what you did while you were up there, or what you saw. Plus they would have bragging rights. Maybe you would be able to see aliens if there was any. Also you'd get to meet the real astronauts that have been there on the moon for a while.

In conclusion those are the reasons I would like to go to the moon. Such as it's every kid's dream. You would be able to tell family stories about it. Last is it's cool and you would have total bragging rights.

Score Point: 3

This response reflects a limited degree of proficiency in expository writing skills. The writer wishes to go to the moon and cites reasons to support this (it's every kid's dream, to tell all your friends, and to tell your family stories about it). Although the response is organized, further development of the key ideas would be required for a higher score.
